

# Opportunity Assessment and BEAD Funding

Understand the right opportunities and make educated decisions for funding with our Opportunity Assessment Analysis Package which includes essential insight into:

- Forecasting the potential margin impacts
- An analysis and the “accretive cash flow matrix”
- A financial forecast of the potential margin impacts
- A range of hypothetical scenarios surrounding:
  - Price compression, operating cost inflation, and USF attrition scenarios
  - Number of locations required to offset the impacts of forecasted pricing compression and operating cost inflation
  - Accretive cash flow produced by defined modeling scenarios
  - Basic best-practice funding preparation plan

Now is the time to begin analyzing your business potential for BEAD and other funding opportunities. A data driven approach to understanding the market conditions and financial prospects is key to success.
